

“Myth”

Necsa USES
NUCLEAR TECHNOLOGY
TO CONTACT LASER-
BEAMING ALIEN
SPACECRAFT.

“Reality”

NUCLEAR
TECHNOLOGY
HELPED GET THE
APOLLO 11 SPACECRAFT
TO THE MOON.

While we don't have plans to get in touch with other worlds at the moment, we are interested in the technology that might get us there. Future spacecraft may use nuclear power to take us even further into unexplored space.
